

FROM THE DESK OF
Santa Claus

To My Friends at the
North Tonawanda Recreation Department,

It has come to my attention that our postal box that was located inside your Youth Center, or as you call it, The REC is not active this year due to The REC being closed this winter. That makes us here in the North Pole very sad.

I've spoken with my elves and reindeer and we have decided that we're going to send out one of our magical outdoor mailboxes to you to make sure that the children of North Tonawanda are able to get their letters to us in a timely manner.

Blitzen was flying over NT earlier this week and notice a nice little park located near the Erie Canal that we thought would be a great spot for our mailbox. When we Googled it, we saw that this was your Botanical Gardens. What a lovely place.

Please let the children in your community know that one of our official mailboxes will be delivered on Wednesday, December 9 and will be ready for their letters by 4pm. We will place it over near the Christmas tree display in your greenhouse. We loved all the decorations we saw in there.

And as always, I will be answering every single letter we receive. I just love hearing from all the children this time of year. Just make sure each child includes their full name and address in with each of their letters

And do not worry, one of my elves will be by every night to pick up the letters. You don't have to worry about a thing.

Merry Christmas!!

Santa Claus
